

UIDP Academy Workshop: FAR and Away: IP in Triple Helix Projects
Draft Agenda as of March 11, 2019 and subject to change

| Tuesday, April 2, 2019 | |
|------------------------|---|
| 7 – 8 a.m. | Workshop Check-In and Registration |
| 8 – 8:15 a.m. | Welcome and Overview <i>Elizabeth Adams, Princeton</i> Government-industry-university ("triple helix") projects are trending, and becoming an increasingly important component of U-I engagement. Intellectual property rights are a common concern for all three parties under these projects. This session will focus on IP provisions governing projects that have government, industry, and university participants and that require knowledge of the federal acquisition regulation (FAR). The nuances, as well as practical considerations of IP clauses in various agreements supporting triple helix projects will be discussed. The workshop assumes general familiarity with U.S. patent and copyright law, as well as typical university and industry policies regarding intellectual property and contracts. |
