**University of Central Florida: Future of Work Listening Session
 Tuesday, September 24, 2019**

9 – 9:15 a.m.	<p>Introduction and Welcome <i>Elizabeth Klonoff, University of Central Florida</i></p>
9:15 – 10 a.m.	<p>Keynote Address Using Technology for Health, Wellbeing and Empathy <i>Mary Czerwinski, Microsoft</i> Ballroom How can we create technologies to help us reflect on and change our behavior, improve our health and overall wellbeing both at work and at home? In this talk, I will briefly describe the last several years of work our research team has been doing in this area. We have developed wearable technology to help families manage tense situations with their children, mobile phone-based applications for handling stress and depression, as well as automatic affect sensing systems that can help you stay focused or recommend good times to take a break at work. The overarching goal in all of this research is to develop sentient systems and agents that adapt to the user so that they can maximize their productivity and improve their health and happiness.</p>
10 – 10:15 a.m.	<p>BREAK</p>
10:15 – 11:15 a.m.	<p>Panel 1: Augmenting Human Performance <i>Roger Azevedo, University of Central Florida</i> <i>Aman Behal, University of Central Florida</i> <i>Bob Sottolare, SoarTech</i> <i>Isabel Nieto, Duke Energy</i> <i>David Yacht, Southwest Airlines</i> Ballroom Panelists will take 5-10 minutes to express thoughts on the workforce of the future with respect to Augmenting Human Performance, with audience participation.</p>
11:15 a.m. – Noon	<p>Breakout 1: Augmenting Human Performance <i>Elizabeth Hamilton, University of Central Florida,</i> <i>Debbie Reinhart, University of Central Florida</i> <i>Carol Ann Dykes Logue, University of Central Florida</i> <i>Mel Stanfield, University of Central Florida</i> Ballroom Facilitators will be at 5-6 tables for a Q&A session with attendees to discuss augmenting human performance.</p>
