Booz Allen Hamilton

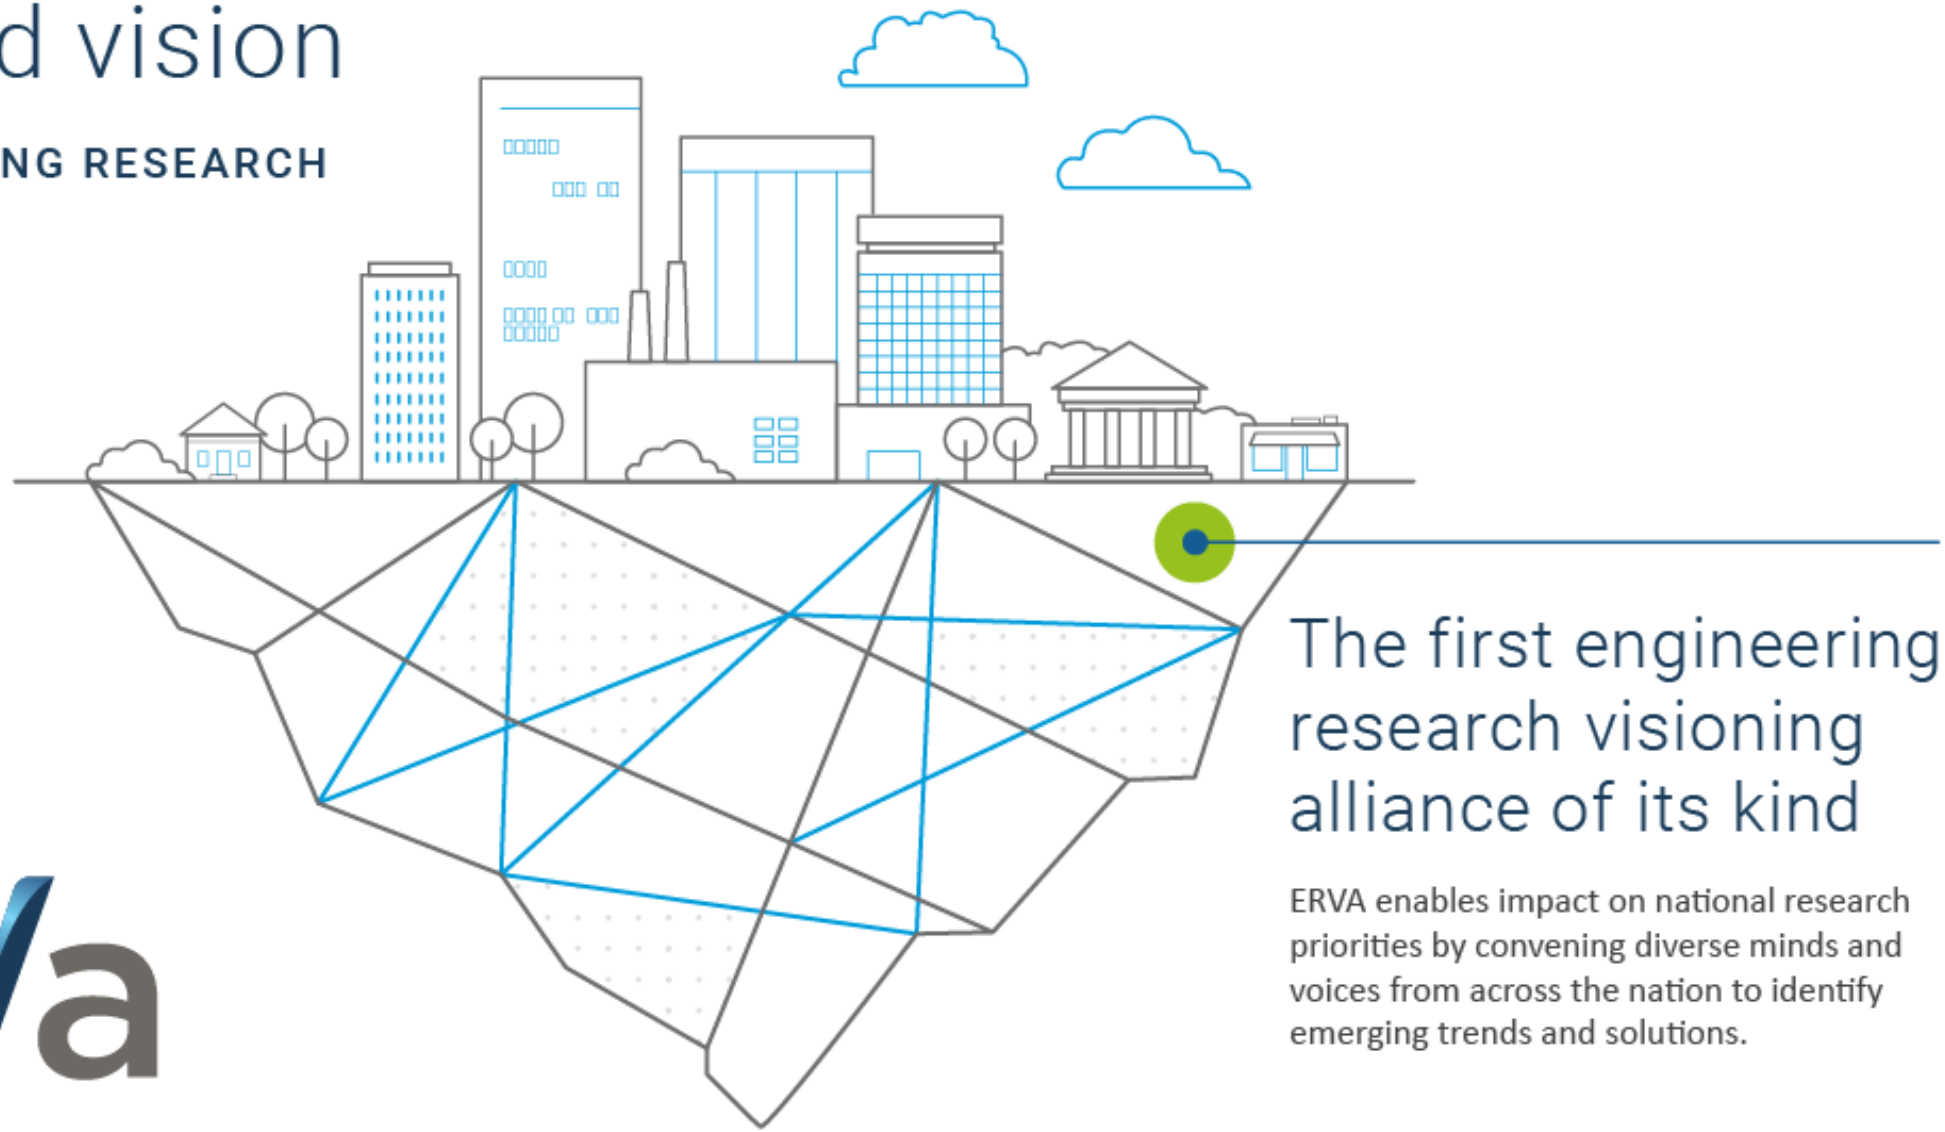
Edl Schamiloglu
University of New Mexico

Barry Johnson
The University of Virginia

NSF Engineering Research Visioning Alliance

A shared vision

FOR ENGINEERING RESEARCH



erVa

The first engineering research visioning alliance of its kind

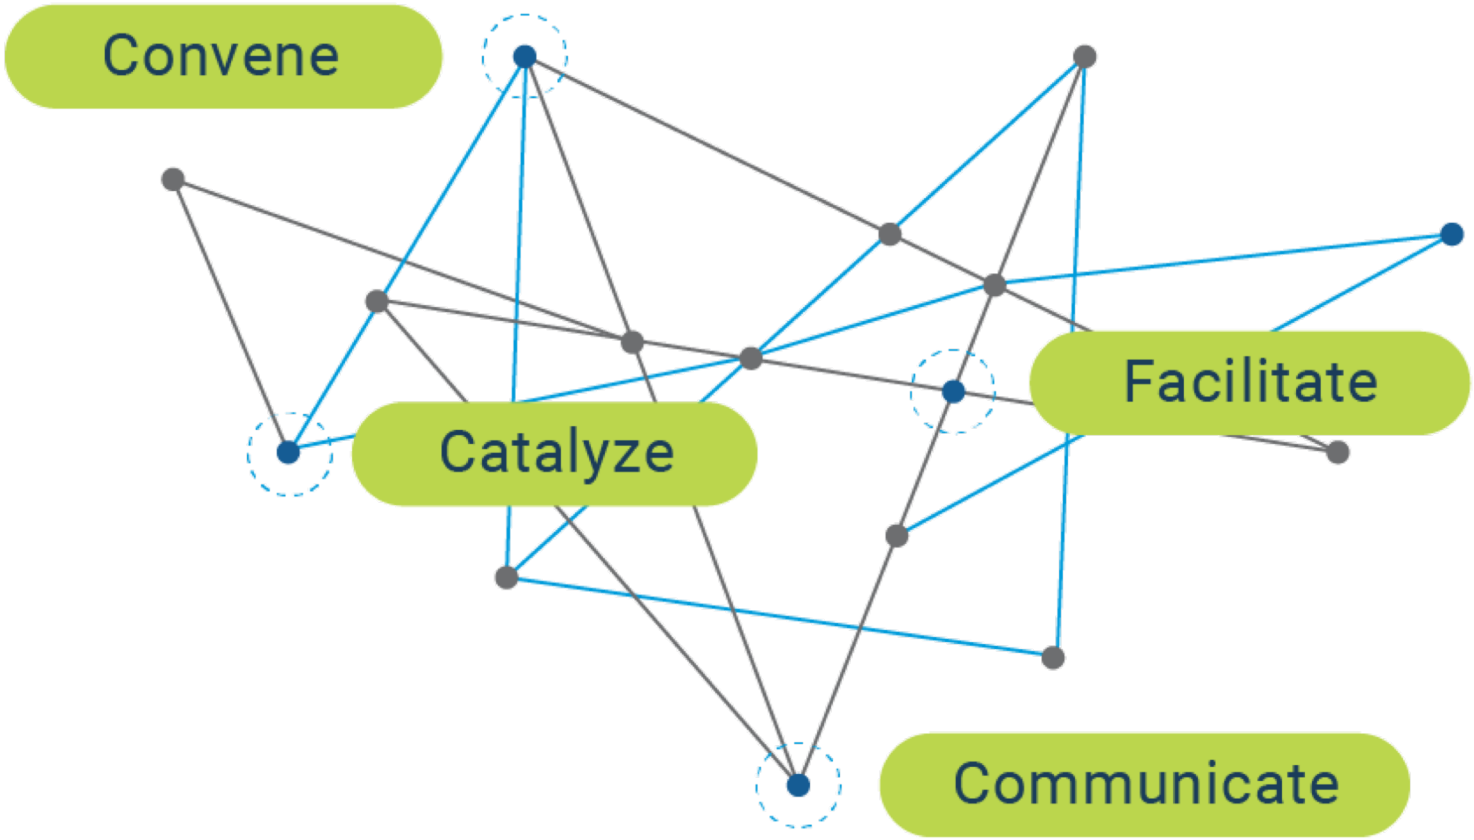
ERVA enables impact on national research priorities by convening diverse minds and voices from across the nation to identify emerging trends and solutions.

Our mission

To identify and develop bold and transformative new engineering research directions and to catalyze the engineering community's pursuit of innovative, high-impact research that benefits society.

erVa

HOW WE DO IT



What this means for engineering research

- ***ERVA actively engages the engineering community to help define new engineering directions that will impact national research priorities.***
- ***Researchers contribute to and learn about emerging areas of research that NSF will fund. This gives engineering researchers a competitive edge.***
- ***ERVA advocates on behalf of the research and development community.***
