

IP Management Across the Globe

To make great relationship
between parties of international research contracts

October 10, 2023

Mieko Mio

General manager

Office of the Intellectual Property Contracts and Management

Division of Tokyo University Corporate Relations

Agenda

1. Dispute resolution methods

- ◆ Introduction to the international arbitration, mediation system

2. The F&A (facilities and administrative) rate, or Indirect costs , or overhead

3. How to get a solution to deal with conflicting contract terms

- ◆ Cost of patent application and maintenance
- ◆ Ownership of research results
- ◆ Licenses' conditions, etc.

Facilities & Administrative (F&A) Rate List 2021 Federal, On-Campus Rates U.S. UIDP Members, Non-U.S. Based UIDP Members

What is F&A rate?

Think of these charges as applying to things that wouldn't need to exist or be used as extensively if Universities didn't conduct research.

Examples; research equipment and buildings, laboratory utilities (light, heat/cooling, power), hazardous chemical and biological agent management, libraries, internet, data transmission & storage, radiation safety, insurance, administrative services, and compliance with federal, state, and local regulations.

★F&A Rates Definition: For the purposes of this document, F&A Rates are the federally negotiated overhead or indirect rates that apply to federally supported research and other kinds of activity.

★**On-Campus Research Rate:** Many universities have multiple rates. For this list, we provide the current, on-campus research rate used for the majority of federal agency awards. Please note that there may be different rates for certain types of federal projects, so please refer to the actual agreement if you need additional information.

★**Off-Campus Research Rate:** The list does not include this rate since it is commonly twenty-six percent (26%). If the rate is different, it may be included on list.

★**Industry F&A Rate:** Some universities publish an industry F&A rate, and this list contains a few examples. These rates are not federally negotiated and are generally higher than the federal rates

Thank you
