

Technology Transfer Services 2016

Helping clients profit
from university intellectual property

OUR INVENTION DISCOVERY NETWORK

80% of the world's university-developed IP is produced by ~4,500 research institutions in 160 countries.

Tekcapital captures all of their IP available for acquisition

Tekcapital's Invention Discovery Network creates a competitive advantage for acquiring & commercializing university technologies

Client-driven Technology Acquisitions

Provides tailored reports that identify relevant, scientifically screened and immediately available university IP

Invention Evaluator ®

Provides objective analysis of the market potential of new IP

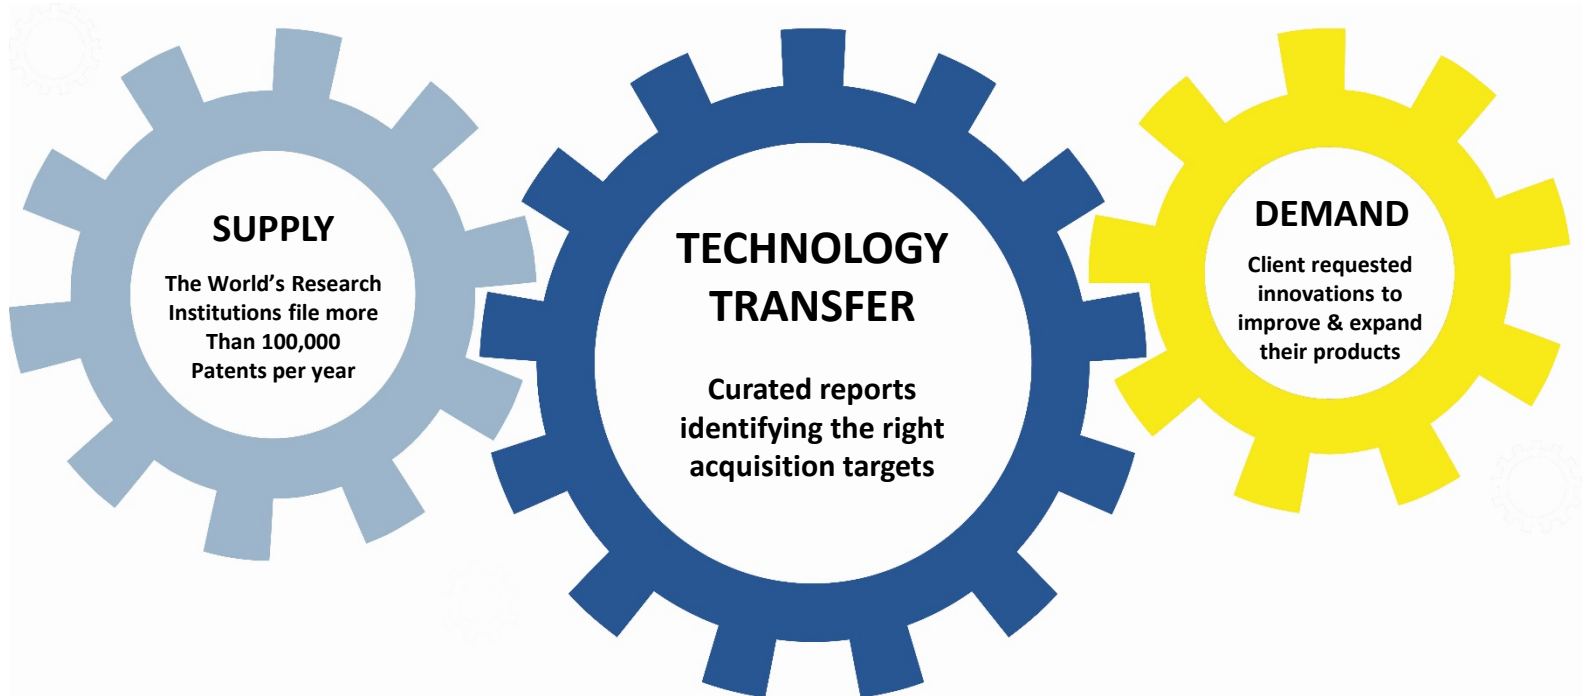

Technology Out-license

Provides previously acquired, disruptive university IP for exclusive license

Vortechs Group

Provides technology transfer executive placement services to enhance your in-house team

CLIENT DRIVEN TECHNOLOGY TRANSFER SERVICE

"Tekcapital has a unique and beneficial business which helps companies of all sizes find and acquire university discoveries to create market value. We have found their offering to be well received by our listed companies that have tried the service."

- Paul Dorfman, Managing Director, NYSE Euronext

Reports are delivered within 10 business days and provide an objective analysis of the commercial potential of new IP

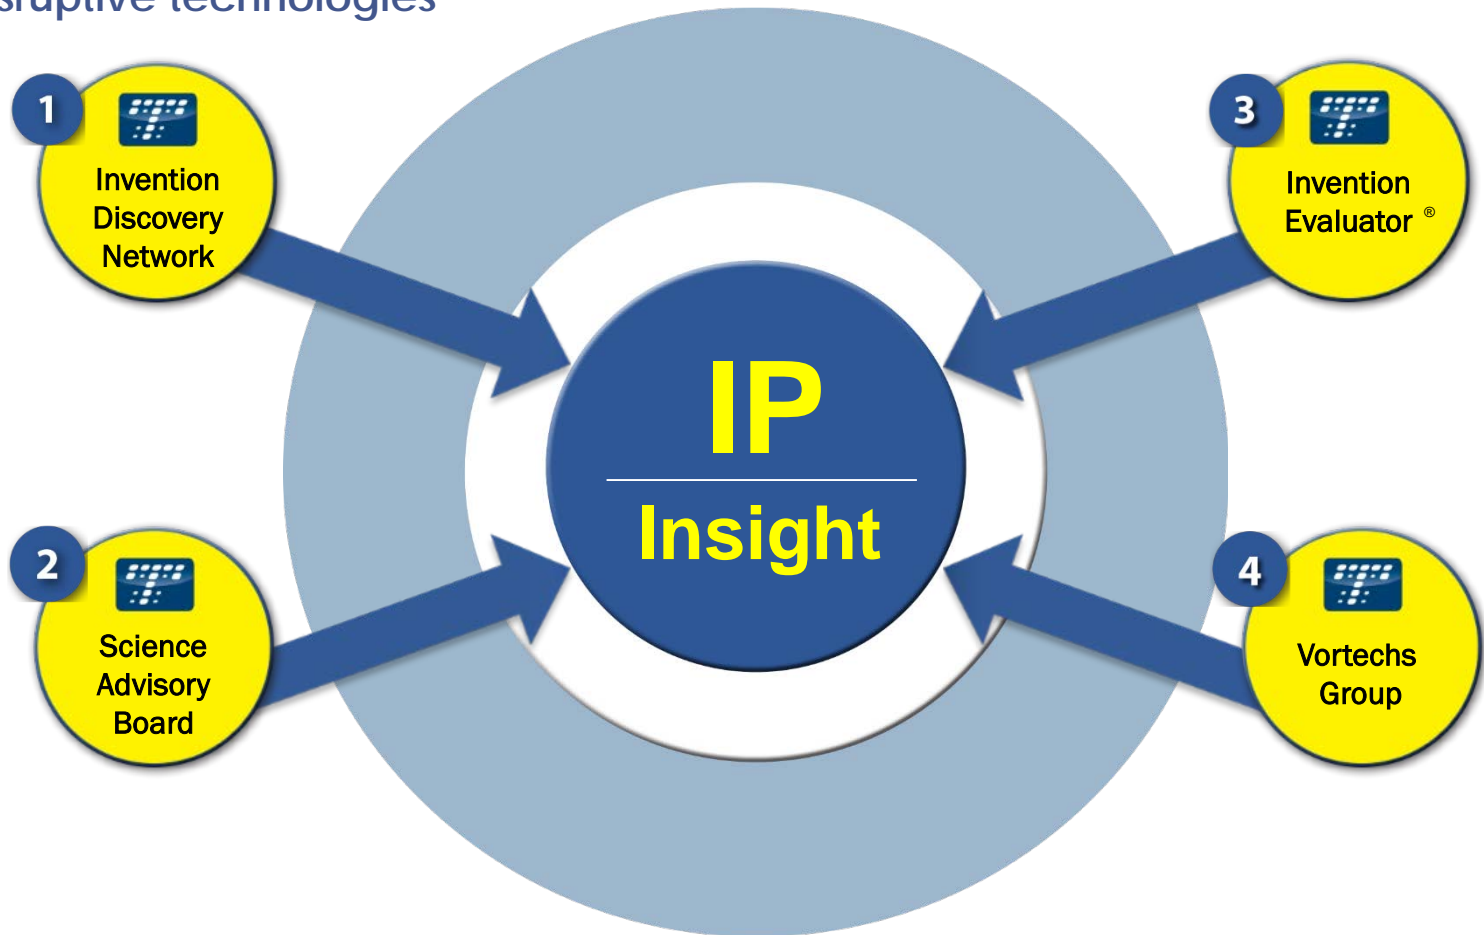

SAMPLE REPORT AVAILABLE AT: INVENTIONEVALUATOR.COM

“What you do is disruptively high quality at a value no one else has been able to touch.”

- Jeff Amerine, PMP, Technology Licensing Manager

TECHNOLOGY OUT-LICENSE SERVICE

Unrivalled access, scientific review & selection of disruptive technologies

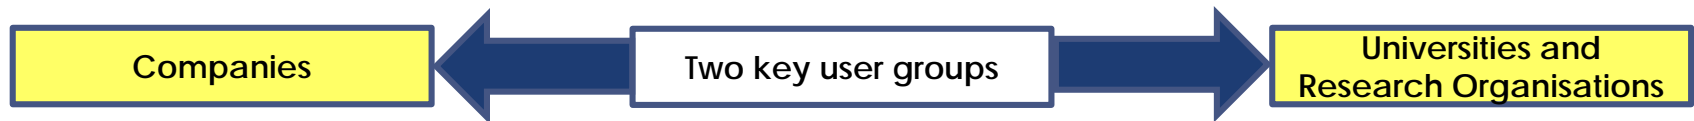

We are also on the lookout for in-licensing opportunities in the following areas: immuno-oncology assets, human energy harvesting, making food healthy, wearables, energy efficiency, and medical devices.

VORTECHS GROUP, TECHNOLOGY TRANSFER RECRUITER

The Vortechs Group matches exceptionally talented professionals with outstanding career opportunities. Founded in 1998, the Vortechs Group is the leading executive search firm for organizations seeking Technology Transfer professionals.

"Recently, our organization engaged Vortechs Group to conduct a search for a licensing manager with specific industry experience. They contributed to our process of finding candidates whom we otherwise might never have seen. It was a pleasure partnering with The Vortechs Group and I recommend their services to organizations seeking technology transfer and related positions."

- Maureen Miner, HR Director, Wisconsin Alumni Research Foundation

"Duke University selected Vortechs Group in the fall of 2015 to conduct our search for an Executive Director of the Office of Licensing and Ventures, which concluded very successfully in early 2016. We could not have been more pleased with their performance and value to our organization."

- Scott Gibson, Duke University School of Medicine
